Environmental Policy Plan

Statement of Policy

It is the policy of Moreton Hayward to provide our services consistently and efficiently within an environmentally sound framework and to continuously seek to improve our environmental performance. The Practice fully recognise that our business activities has an impact on the environment in which we operate however as a service provider we believe that the growth of our business can be achieved within a structure of sustainable development and environmental awareness.

The Directors are committed to the continual improvement of the business' environmental performance and to the adoption of environmental best practice. To achieve our Environmental Policy the Practice will:

- comply and where appropriate exceed the requirements of relevant legislation, regulations, licences and codes of practice.
- with sustainable development in mind, seek to reduce adverse environmental impacts of the our business activities on the environment on an ongoing basis through seeking continuous improvements.
- reduce waste and the consumption of resources (materials, fuel and energy) and ensure unavoidable waste is recycled, reused or recovered, where possible, or disposed of responsibly to improve our environmental performance and prevent pollution.
- protect, conserve and enhance the natural environment as far as it can control.
- educate, encourage and support all staff to understand the environmental issues affecting the firm, to take responsibility for their actions and to highlight their contributions to environmental performance.
- promote an open exchange of information and dialogue relating to our environmental management with our clients, employees, suppliers and other relevant parties.
- monitor and where possible reduce the impact of our activities on the local and general environment and to support appropriate environmental initiatives within our community.

- monitor progress and review our environmental performance, objectives and targets on an annual basis.

The Directors will periodically review this Environmental Policy in the light of legislative, regulatory, scientific and business developments.
